Simple, effective **& functional!**

General Manager of NHL-team Columbus Blue Jackets, Jarmo Kekäläinen, chose Vestelli Bio-3 to his residence. Decision criteria were the high level of purification, small space requirement, quick installation and effortless maintenance.

Electric fan boosts the oxidation in Biomodules.

Flexible installation. Height difference between inlet and outlet pipe 5cm only.

Reactor is divided in three sections. It separates efficiently grease and organic material.

Free flow function throught all sections. No risk for overflow hazards.

Biomodules purify grey water by oxidation. Extremely hight performance.

Purified water flows directly inti a ditch.

Coarse filter completes the highest purification level.

Sustainable solution. Minor maintenance, no filters needed.

Vestelli Bio-3

- Nominal flow = 1-5 persons (600 l/day)
- Size = Ø 1200 mm, h= 2000 mm
- Weight = 1200 kg
- Power = 45 W - 230 V - 0,2 A

Vestelli Bio-4

- Nominal flow = 1-10 persons (1200 l/day)
- Size = Ø 1200 mm, h= 2500 mm
- Weight = 1700 kg
- Power = 45 W - 230 V - 0,2 A
